— AN ITEM OF INTEREST —

The outstanding position of WM. G. SCARLETT & CO. in Maryland is clearly shown by the official summary for 1929 just issued by the Maryland State Seed Testing Laboratory.

Of the 375 official samples collected during 1929 from the shipments to Maryland of 7 wholesale dealers in Baltimore, over 46% of the total were from shipments made by us, and the percentage of our shipments found properly tagged, and within the official tolerance for purity, weeds and germination, was nearly twice as high as the average percentage of the other 6 wholesale dealers combined.

It costs less to trade with the house of SCARLETT.
